

▶ Exceptor® door blocking system SKG ✓

Innovative floor mounted doorguard

Leaves unwanted guests outside. Wanted guests enter in the blink of an eye.

A home robbery is considered one of the most invasive forms of criminality and insecurity, according to the police. Exceptor® door blocking system is designed to enhance residents' (of all age groups) sense of safety and provide them with the opportunity to call the emergency number if needed. The Exceptor® door blocking system prevents a potential home invader from opening the front door when it's slightly ajar. This innovative solution not only prevents theft of valuable belongings but also protects unsuspecting residents from potential psychological harm.

Product advantages

- ▶ **Floor mounting;**
 - Prevents damage to door frames and doors during a home robbery attempt
 - Unlike a traditional doorguard or -chain the Exceptor® can be used in every situation
 - Easily accessible for operation by residents of all age groups.
